

# Population Management Through Transformation

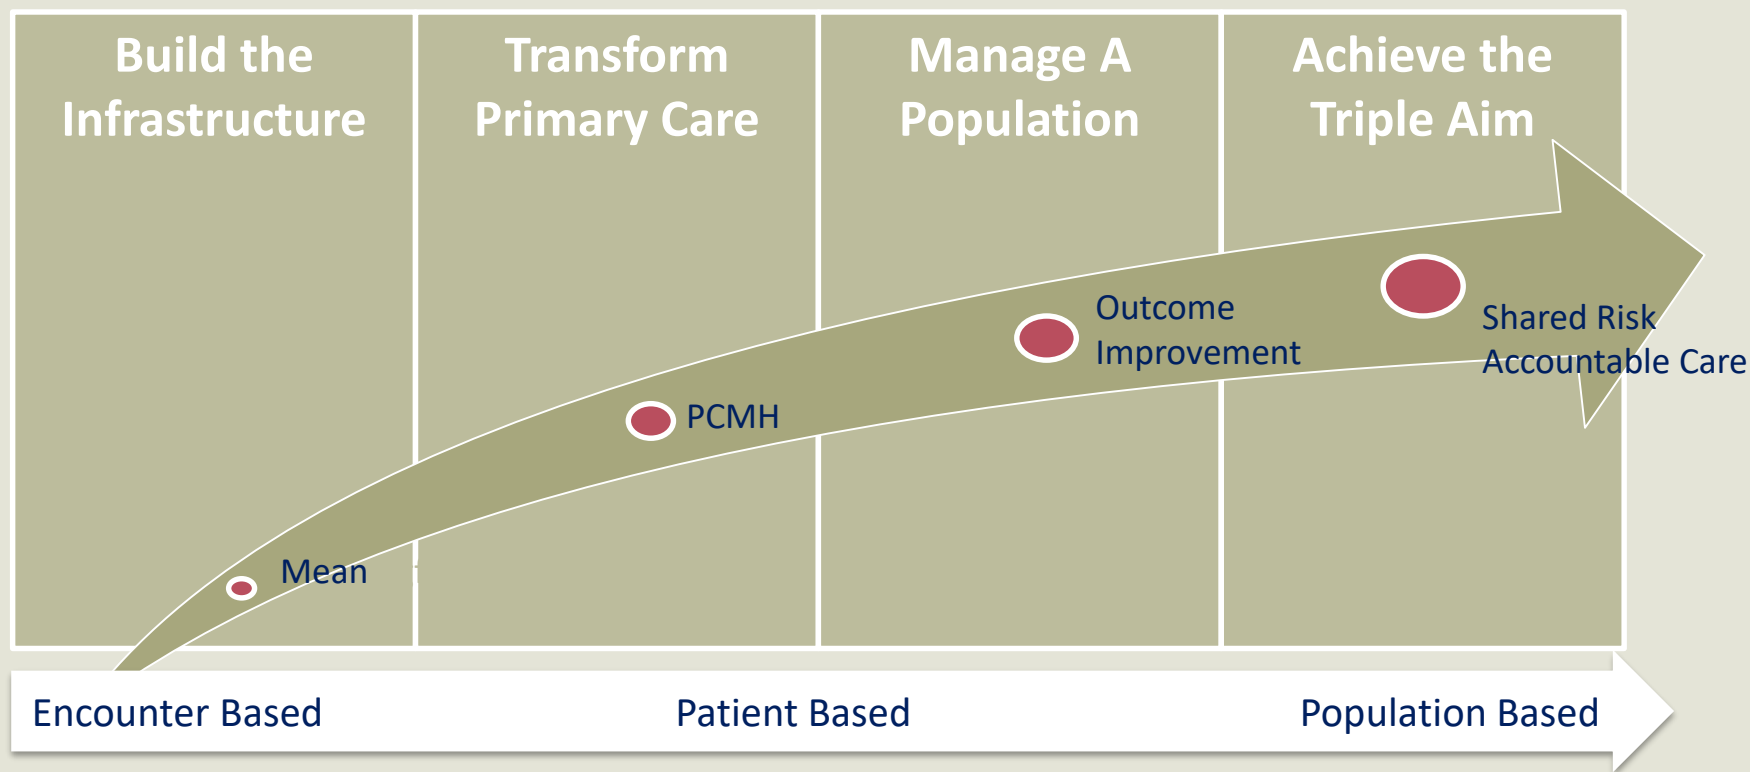

*Yakima Valley Farm Workers Clinic  
Mission of Continuous Improvement*

*Presented by:  
Juan Carlos Olivares, Executive Director*

*Care delivery organizations are being pushed to adopt new care models that drive quality while payment reform lags behind.*

# Direction in the Face of Change

*Our focus has been preparing the organization to change rapidly by creating culture of continuous improvement and data-driven decision making*

1

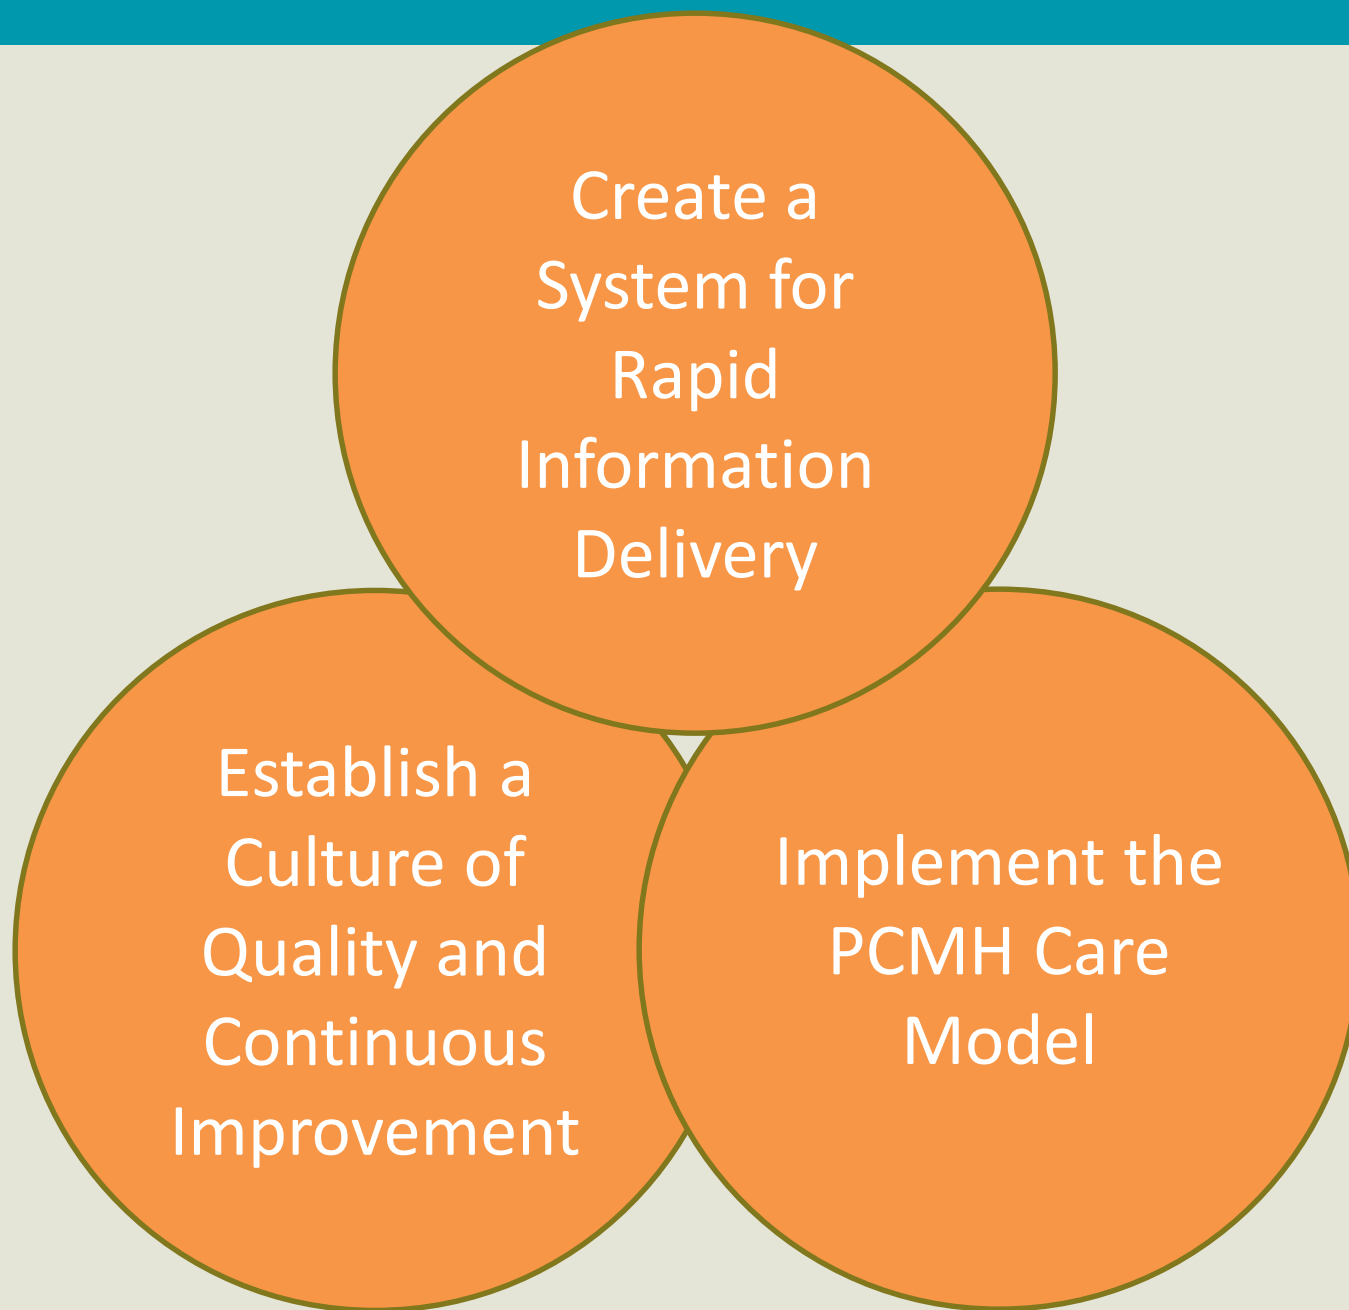

Build an organization that is ready to adapt to changing demands quickly and scalably

2

Build a data infrastructure that helps us make the right decisions quickly

3

Focus on practice efficiency and quality

**Make Data  
Accessible and  
Transparent**

**Focus on  
what is  
important**

**Optimize  
Transformation  
Governance**

**Centralize  
Change  
Management**

**Establish a  
Culture of  
Quality and  
Continuous  
Improvement**

## Overall Progress [Hide](#)

09/19/2013: Plan ends in 4 months, 68 points to Level 3

# Create a System for Rapid Information Delivery

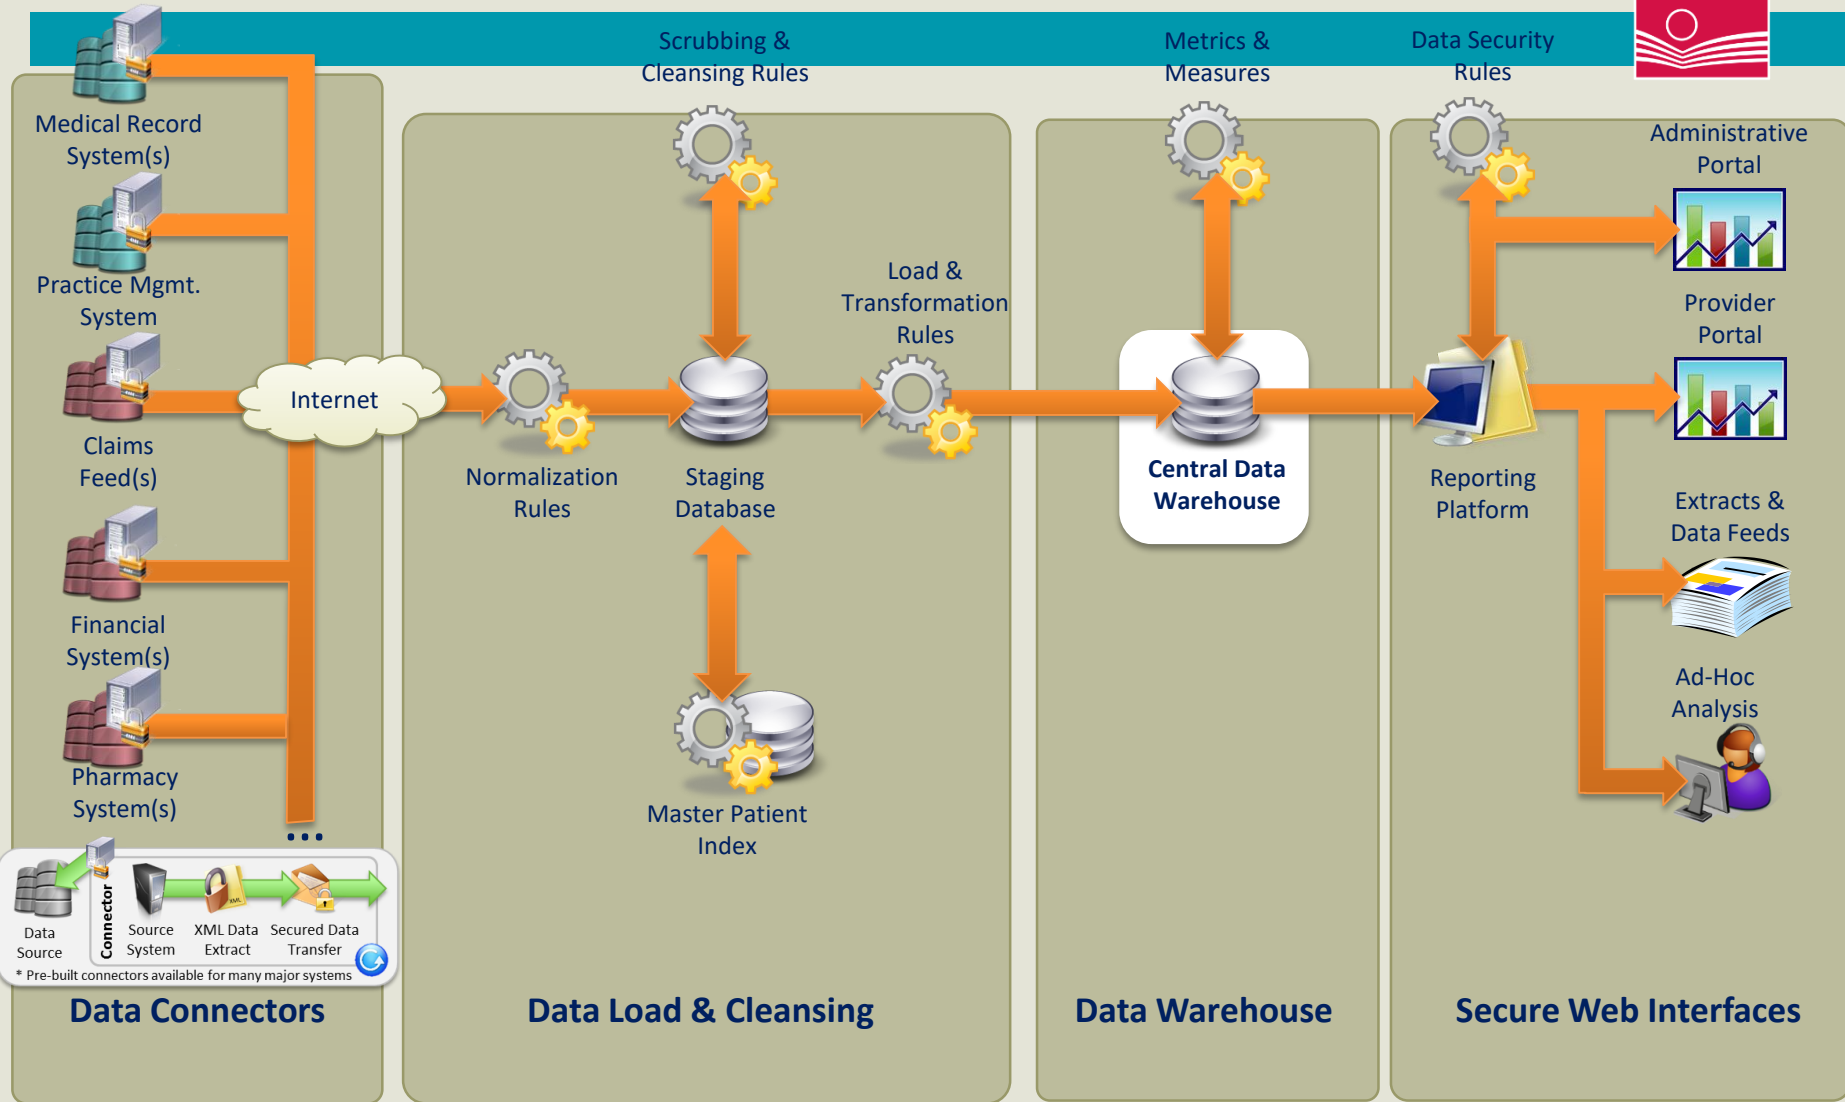

**Centralized  
Data  
Warehouse**

**Single  
Source-of-  
Truth**

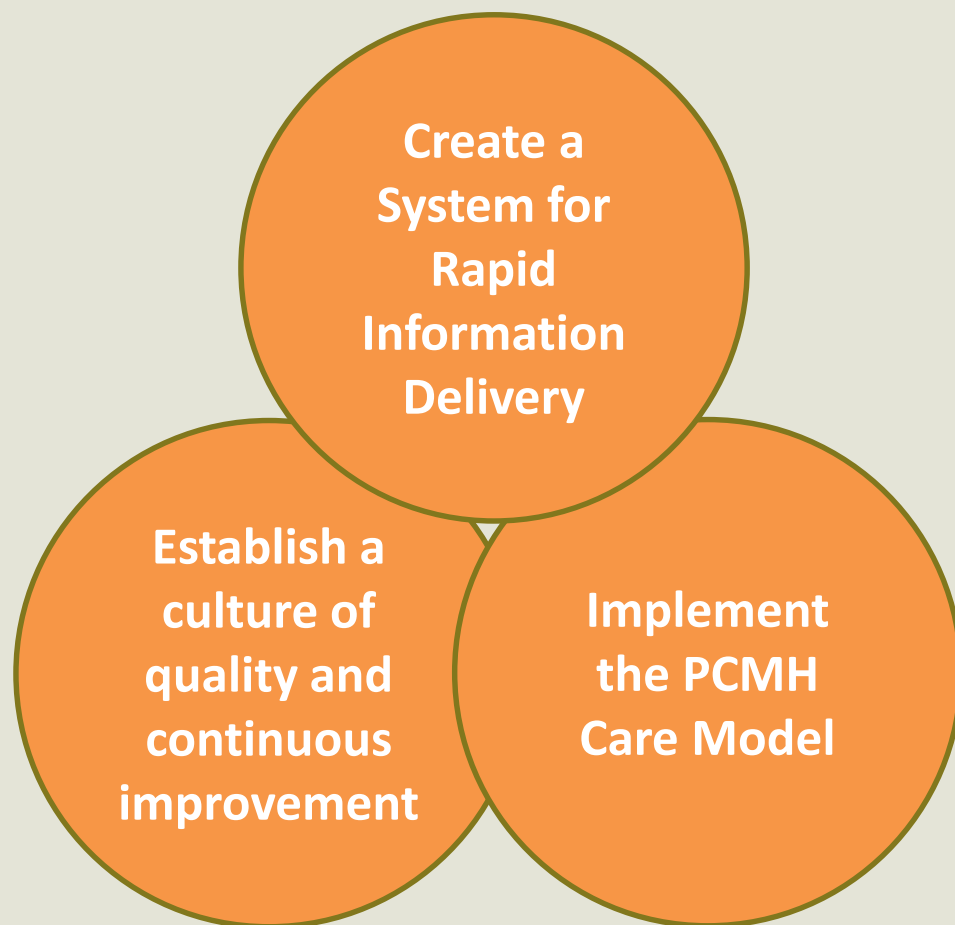

**Outsourced  
Informatics**

**Actionable  
Reporting**

**Proactive  
Analytics**

*Working with Arcadia Solutions, YVFWC has developed a complete analytics and reporting solution that specifically aligns with our needs*

*“I don’t know what you guys are doing differently there but it’s so great! A year ago, no offense, your clinic was a mess. I couldn’t get a call back for days, no one would contact me with results, I couldn’t get an appointment and now everything is easy and organized. I can tell that you guys are working to make everything better and I wanted to let you know it’s working.”*

*- YVFWC Patient*
